## **Apartment Information**

**Internet:** Access to the internet is provided via wired Ethernet connection and WiFi (for the password contact the property manager). Telephone is free to local landlines (long distance and calls to mobile phones is blocked).

**Remote Controls:** The remotes controls are in the right top drawer of the TV cabinet.

**Mobile/Celular-Phone service:** At the time of this publication, COSMOTE had the best signal strength among the three main providers.

**Toilet:** Please do not throw papers or other objects in the toilet.

**Air-Condition:** Please turn-off the Air-Condition when you leave or go out.

**Security:** Please ensure that the doors are locked at all times and don't allow anyone to follow you in the building when entering or exiting. For your protection, there are security cameras in the common areas of the building.

**Garbage:** If you have garbage between clean ups, or just don't like odors, you may take them to the bins at end of the road (as you exit to the right).

**Quiet hours:** Please observe common courtesy to other residents in the building as well as local ordinances. (Winter: Oct1-Mar31 15:30-17:30 and 22:00-7:30, Summer: Apr1-Sept30 15:00-17:30 and 23:00-7:00).

**Food Guidelines:** Although, there is a microwave to warm up food, the apartment is not intended for regular household cooking and there is no cooking facilities.

**Hot Water:** The water is balanced by thermostatic valve at a temperature which is hot but will not scald. The hot water is heated by solar/electric boiler. If there is no hot water (for example on a cloudy winter rainy day), you may need to activate the electric circuit. The electrical panel (to your right upon entering) has a colorful circuit-breaker with the button "Start". This will automatically trigger the relay to warm the water at a pre-set time. When done (and you can see the display counting down), it will buzz to let you know that it's done.

**Brown-outs** and flickering lights are not uncommon in the dense area of the apartment during the hot summer months when the power grid is overloaded.

*Property Manager (Host): For other information, or if you have further questions, please contact your property manager. His business card should be held with your wallet and take a photo of his business card with your phone. This may be the most important number you may need during your stay.*

***We hope you enjoy your stay!***
